EDUCATION

Indian Institute Of Technology Varanasi (BHU)

Bachelor of Technology

Varanasi, UP

2022 – 2026

EXPERIENCE

AI Engineer Internship

Dec 2025 – Jan 2026

Ekam Internet LLP

Remote

- Implemented AI-powered product features using Claude Code, completing assigned Jira tasks.
- Built full-stack integrations and automated workflows using Zapier and N8N across multiple business systems.
- Implemented Aadhaar verification, document processing pipelines, and scalable APIs for enterprise applications.

Quantitative ML Developer Internship

May 2025 – Jun 2025

SPRINGPAD WEALTH

Remote

- Built machine learning models using Random Forest and XGBoost to predict Nifty and BankNifty movements.
- Designed and evaluated a Z-score based forecasting pipeline on Gold-Silver datasets spanning five years.
- Performed model validation and backtesting using risk-adjusted performance metrics and drawdown analysis.

PROJECTS

JurisMind: AI Powered Legal Document Analyser | *Streamlit, LangChain, Sentence Transformers, NumPy*

- Integrated semantic search with automated summarization to deliver fast legal insights and generate case briefs.
- Designed a Streamlit-based interactive web application to simplify legal research workflow and improve efficiency.
- Enabled multi-format document handling including PDF, DOCX, and URLs to support diverse text processing.

RL-Powered Algorithmic Trading Platform | *Python, React, FastAPI, Stable-Baselines3, Claude AI*

- Designed a DRL-based trading platform supporting PPO, DQN, and A2C strategies for Indian equities.
- Integrated custom trading environments, risk controls, real-time data streaming using technical indicators.
- Built an interactive dashboard with LLM-powered trade rationale generation with paper trading support.

ZeroReject: AI-Powered Mock Interview Platform | *Next.js, React, Gemini AI, Clerk, Drizzle, PostgreSQL*

- Built a full-stack AI interview platform that analyzes resumes and generates role-specific technical questions.
- Developed real-time speech-to-text and webcam-based interview simulation to deliver an interactive experience.
- Implemented secure authentication, performance tracking, and AI-driven feedback.

TECHNICAL SKILLS

- **Programming:** C, Python, C++, SQL, Java, React
- **AI/ML:** Machine Learning, Deep Learning, Agentic AI, LLMs, NLP, RAGs, Reinforcement Learning
- **Tools:** LangChain, FastAPI, Streamlit, Scikit-learn, NumPy, Pandas, Git, PostgreSQL, Docker, CI-CD

HONOURS & ACHIEVEMENTS

- *Star Quant of the Month* – for exceptional performance during internship at AR Financial.
- Participated in *HCL Tech Hackathon* (GenAI Track) and selected for PPO as Senior AI Scientist.
- Certificate of Excellence in Machine Learning & Summer Analytics Program, *IIT Guwahati*.
- Achieved *1744 max LeetCode rating*, demonstrating strong problem-solving skills.

POSITIONS OF RESPONSIBILITY

- Operations Manager, *Technex'24* – managed event operations and cross-team coordination.
- Marketing Executive, *Kashiyatra'23* – led sponsorship outreach and partnership initiatives.
